

Just in Time for Tax Season

Marian Dykes, CPA and Brevet Judge, conducted a session at Region 8 Symposium on Income Tax Reporting for Gymnastics Judges. Her session was developed into an Ibook by Cookie Batsche and is now available in the iBooks store at no cost to you. The book includes lots of video so it takes 5-8 minutes to download. Be patient with the download and it will soon appear. The book describes the basics of income tax reporting, why you need to report, forms needed (including 1099s), deductions that are possible (more than you may know about), and those that are not. To access the iBook, go to the iBook app on your Apple device, search for Marian Dykes, and then download the book. Alternatively, you may open the link below on your Apple device: <https://itunes.apple.com/us/book/tax-reporting-for-gymnastics-judges/id1214660796?ls=1&mt=11> (remember it may take 5-8 minutes to download). We hope this information is helpful to you as you prepare your taxes this year.
